

What Happens at NID Studio Test

1. NID Studio Test - Doodling

15-20 frames of incomplete lines
Used for psycho-analyses
Need to express something
Need to have captions
Need to be tidy

2. NID Studio Test - Observation

Testing awareness of 5 senses
Example 1- Visual - Video clip, Photos etc
Example 2- Touch – Identify objects
Example 3- Audio – Music clip
Example 4- Experiences at studio test

3. Studio Test – Observation 2

How many kilometers is the Railway station away from NID Campus?
What did you see at the NID Entrance Gate?
What are all things white you saw in the foyer?
What were the ingredients in the snack you had during break?

4. NID Studio Test - 3D Model

In GDPD - 3D Model per brief & materials
Judged on-

1. model suffices the brief
2. how well materials are used
3. how well you understand and solve the problem

5. NID Studio Test - Specialization

In PGDPD, the third test is based on specialization chosen.
It may be 3D modeling / Sensory test / visualization & drawing skill test / problem solving test etc

6. NID Studio Test - Random test

Material handling E.g. Best out of Waste
Other psychometric tests E.g. “Out of box” thinking questions.
Other observation tests- cultural, on the spot tests etc.
